Supply conditions: CIP (Incoterms 2010)

Pedigree is confirmed by pedigree certificate.
Pregnancy of heifers is 3-6 months.

All pedigree animals are of Ukrainian, Danish, Hungarian, Czech, French and Austrian selections, they have high genetic potential.

We guarantee a high level of veterinary control before and during quarantine in the country of origin.

We also provide professional assistance in the selection of livestock, as well as consultations on feeding, care, animal husbandry and their cure.

Delivery of the animals is carried out by our own special road transport in the shortest possible time.

We are interested in constant and reliable business partnership and hope for mutually beneficial cooperation. We believe that our experience of animal husbandry will help the development of agriculture in your country!

We are looking forward for your answer.

With best regards
Director
